Always seek the advice of your physician or other qualified healthcare provider for information you may need regarding a medical condition.

References:

1. Cancer Mortality Coverage means that the 9 cancer types of LucenceINSIGHT® Me, comprising 6 fixed cancer types of LucenceINSIGHT® Core plus 3 selected cancer types, account for that percentage range of cancer deaths in Asia. Percentage varies depending on the 3 selected cancer types. The total excludes cancer deaths from other specified cancers and unspecified sites and are calculated as upper limits of global cancer mortality by the cancer types, extracted from the GLOBOCAN 2022 data. Cancer sites were matched to GLOBOCAN categories using the closest available sex-specific mortality data. All percentages derived from the GLOBOCAN data are conservative estimates. LucenceINSIGHT® Me

Patient Information Leaflet

Personalized Cancer Screening

Your Risk. Focused Detection.

What is LucenceINSIGHT® Me?

LucenceINSIGHT® Me is the first customizable multi-cancer early detection (MCED) test that empowers patients with their doctors to tailor cancer screening panels directly.

It combines LucenceINSIGHT® Core and 3 additional cancers from a curated list of 12 cancers.

Breast cancer · Colorectal cancer · Liver cancer · Lung cancer · Pancreatic cancer · Thyroid cancer

+3 MORE Screen for 6 core cancer types, plus choose 3 additional cancer types from 12 available options

Who Can Benefit from LucenceINSIGHT® Me?

Individuals Aged 40+ with Elevated Cancer Risk
(family history, diet, lifestyle)

Not recommended for patients who are:

- Pregnant
- In cancer remission for <3 years
- Had surgery, an allogenic bone transplant or a blood transfusion <2 weeks prior to sample collection

Ordering Process

1. Test is requested by your healthcare provider
2. Blood draw — Refrain from heavy meals prior to blood collection.
3. Lab testing
4. Report

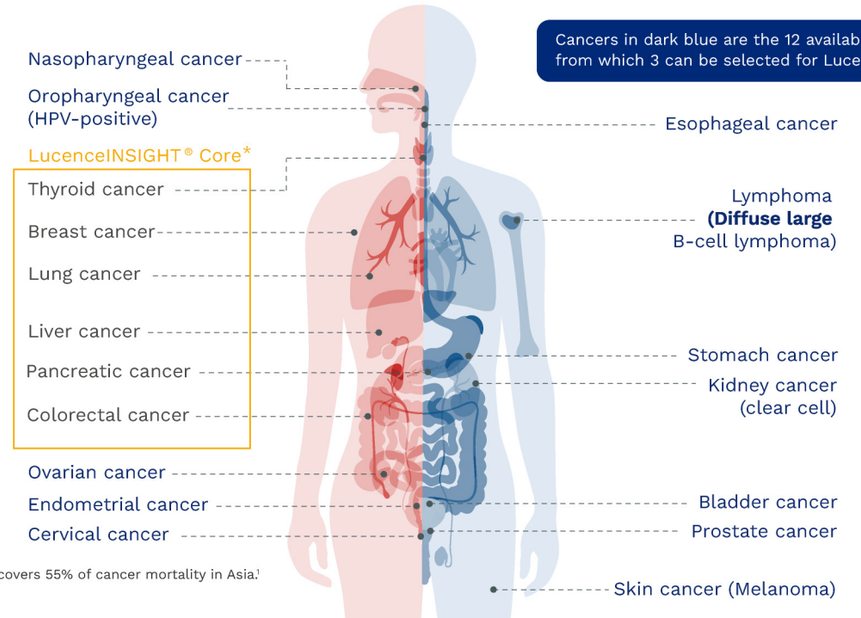
The report will be ready in 18 working days after sample is accepted by the lab.

Personalized Cancer Screening

LucenceINSIGHT® Me

Selected cancers cover up to 77% of cancer mortality in Asia.[1]

Cancers in dark blue are the 12 available options from which 3 can be selected for LucenceINSIGHT® Me.



* LucenceINSIGHT® Core covers 55% of cancer mortality in Asia.[1]
